The Memory of Water & Fire: A Celebration of the Elemental
@ Canco Lofts, 50 Dey St, Jersey City

At the heart of myth and religion, woven into the fabric of all cultures, perhaps the cause of future wars...WATER.
A universal element that is worshiped and feared because of its characteristics; known to purify or to destroy...FIRE.

The contrast and balance of these two elements are explored in political, spiritual, abstract, emotional, and humorous ways. Join us for the opening for special live performances in honor of the elements.

 Fire Curated by Jun'ichiro Ishida  Water Curated by Jaz Graf
